

It is very important to me that the FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections. Indiana's current Telephone Privacy law has improved mytime at home. Indiana's law has been very successful for me and my family. Prior to the introduction of the law we got a large number of these unsolicited calls - it was a disgrace.

YOU MUST NOT give in to the pressure from "interest groups" - it's our life, and we don't want calls from anyone that considers me an "existing customer"
